SHORT COURSE

Supervisor and Team Leadership

This Skill Set reflects the role of individuals working as developing and emerging leaders in a range of contexts. Leadership often begins at the team leader level across a wide range of enterprise and industry contexts. Team leaders communicate effectively, ensure team performance and develop effective relationships in the workplace. Across the breadth of industry, team leaders are responsible for implementing operational plans.

The Team Leader Skill Set is designed for team leaders/supervisors and employees acting in (or recently promoted to) a front-line management position, and those wishing to revise their leadership skills. Businesses often promote good employees to leadership roles but forget to support them in gaining the leadership skills they will need to get the most from their teams.

This course introduces existing or potential supervisors and specialists to the fundamentals of the role of a supervisor whilst also providing exposure to structured systems and processes. The program is delivered under qualification BSB42015 Certificate IV in Leadership and Management. The units have been carefully selected to give learners the supervisor skills they need to be effective leaders so they can achieve business outcomes.

What is in this program for learners?

Everyone wants to perform at their best and be recognised for it. This program will develop learners capabilities to perform their tasks more efficiently. Learners will gain maximum job satisfaction by seeing and understanding how their role fits into the overall process. Corporate Partners programs are delivered through structured on-the-job learning, workshops and include one-to-one guidance and coaching for learners when required. Training and Assessment sessions are conducted with the learners in a client company workplace, on the job, utilising the company's facilities or blended with online training sessions. This program is ideal for skills development and demonstrating competency, any skills program should incorporate or be embedded with real work activities.

***When you can access the right leader, remarkable things happen.
The workplace will be safer, efficiencies will be improved, and profitability maximised***

The delivery

The program is designed with fifteen (15) sessions, usually 1.5 hours for each session in total over a period of fifteen (15) weeks. There will be one (1) session a week allowing time for improvement and analysis in between training sessions.

This part qualification can be delivered onsite or online within a workplace and is designed to be delivered to small or large businesses with one of our highly skilled and highly trained consultants leading you through the program.

The program will consist of training with our consultants and then learner assessment at the completion of the training to confirm the learner's knowledge and skills gathered.
